

Greetings,

The following pages are not copy written, however, I request that you not sell them, as I created them.

Dennis R. Heisey, Middletown PA July 1. 2004

Directions:

(NOTE: Originally, when created in AUTOCAD 2000, all interior were gray, they scanned darker)

It may also be better to print out the sheets and run through a copier, especially when you use the brown paper.

Sugar cubes scan:

The sugar cube packets should be printed on white paper, they will hold 6 sugar cubes of the Domino Variety. Fold on the interior lines.

Caramels Package:

Print on light weight card stock, it should hold several Kraft Brand Caramel cubes.

Cream Substitute:

These are actually similar to the MRE and C-Ration type cream packages. They should work, and if they don't use them for a later period. Print these on brown paper (I used masking paper and builders paper, then wrapped them around Carnation Brand individual packets I had)

Orange Juice, Lemon Juice, Bullion Powder and Nescafe packets:

These are actually similar to the MRE and C-Ration type cream packages. They should work, and if they don't use them for a later period. Print these on brown paper (I used masking paper and builders paper, then wrapped them around Instant Coffee and Lipton's Brand Bullion individual packets I had, for the Orange and Lemon powder you can white glue aluminum foil to the packages and put about 2 tablespoons of Instant drink mixes in them.) *USE PRESWEETENED JUICE MIX OR YOU WILL HAVE TO ADD SUGAR!*

Enjoy and Have Fun!

	<p>Ingredients: Sugar, Water, Gum Arabic, Thiaramin, Natural Flavors, Sodium Thiocarbonyl, Vanilla Extract</p> <p>NET WT. 4.5 OZ</p> <p>CARAMELS</p>
